

AMENDMENTS TO THE DRAWINGS:

In the Office Action Summary, the Examiner objected to the drawings filed on November 7, 2000. Although the Examiner does not detail the objections in the Office Action, it is presumed that the Examiner objects to the hand written text which is not included within the respective blocks of the figures. In order to overcome what are believed to be the objections, replacement sheets are submitted herewith. FIGS. 1, 2 and 3 have been revised to replace the handwritten text with printed text within the respective blocks. No other changes to the drawings are intended. If the Examiner has other objections to the drawings, it is respectfully requested that these objections be enumerated. Otherwise, approval of the drawings provided as replacement sheets is respectfully requested.
